footer [3:1]	footer [3:2]	footer [3:3]	footer [3:4]	footer [3:5]

The following table has a header, a footer and two bodies that have cells spanning several lines. Each row group should be complemented at the end: as a result, the header should contain two rows, the footer - three rows, bodies should get 10 rows each. All row groups differ in number of columns: header has 3 columns, footer has 5, the first body has 6, and the second body has 7. The resulting table should have 7 columns. All colors are the same as in the previous table.
